ORDER

This matter comes before the Court on the United States' unopposed motion to allow the United States to provide certain paragraphs of Defendant Pedro Leonardo Mascheroni's PSR to DOE so that DOE may use those paragraphs to provide context in making classification determinations of some of the materials provided to it in anticipation of sentencing. The Court finds that the motion is well-taken and should be granted.

IT IS HEREBY ORDERED THAT the United States is to provide a copy of paragraphs 20 through 61 of Defendant Mascheroni's PSR to DOE for DOE's use in conducting classification reviews of materials submitted to it in this case.
